The Legislature of our State has manifested a strong disposition to repeal this odious act. Several bills have been introduced at this early day, and from the numerical strength and respectability of the friends of repeal, we look for a decided and effective expression of opinion on that subject. Public sentiment demands this imperatively. In some counties a stronger issue was made-in others no issue was made on the subject .-But enough is known of the sentiments of the members to give us strong assurances. that repeal is inevitable. It is earnestly hoped that as little delay as possible will intervene -let the monster be stricken down; and then the people will consider what further action the case may require. Members ought not to think their work completed by the simple act of repeal-but prudence perhaps suggests that a careful approach may be safer than a furious onslaught. A man of high purposes and honest intentions can not refuse to give his support to this measure of reform. The eyes of the people are turned as intensely upon this one item of legislative action, as any other to be considered of this session, and the man that raises his hand or voice against repeal is even now politically damned, and his chances for salvation of any kind very problematical. An appeal constantly goes up from every hill and vale of our beloved Tennessee, that the heart of an unselfish man cannot resist-an appeal that melts the heart of the christian legislator-one that should terify the political trickster, who, for the hope of success, turned renegade to his race, and made war upon morality and religion. Let such a one now repent and make some amends to his conscience by striking one blow for repeal. The doggery power has been in the ascendant for ten years-it has been harvested well. No time has been lost. Some revenue has been paid; some souls have been lost; and a few millions of dollars have gone into pockets, which like the grave, have given nothing back. These doggery men under the cover and sanctity of a partnership with the State, have nicely and skillfully engineered their victims to the dogs and the devil-have administered upon their estates-have tormented them before their time-the whole programme during the ten dreadful years having been interlarded with lamentations more doleful than those of Jeremiah, and with tears bitterer than the waters of Morah. " How long, O Lord, how long!" This is the cry of the people, and let him beware who turns a deaf ear!

THE DEMAND FOR BREADSTUFFS ABROAD. -As every item of information bearing upon the grain market is interesting, more especially to our country readers, we give below, says the Washington Sentinel, an extract from a letter from M. Gaillardet, the able and reliable correspondent of the Courier des Unis, the Franco-American paper published in New York:

"The illuminations and rejoicing in honor of the capture of Sebastopol were no sooner over, than the horizon grew dark again to the eyes of sp. culators, and the public funds experienced a sensible decline on the exchange, where patriotism ever gives way to the worship of mammon.
"The pane is to be attributed not only to Total,

idle rumors, but also to well founded, appreness of the crop, as reported by the different general councils of the department, and ad mitted even by the Moniteur. The defict acknowledged by the government organ amounts to seven millions of hectolitres."

Now, as the press is not only gagged in France, continues the Sentinel, but is used as an instrument of Louis Napoleon's despotism, and as it might not just how suit the policy ficit in France as at least one-third greater viz: ten millions of hectolitres, or twenty- and ink, editors, contributors, composit-

In an article on the eastern war, the N. Y. that she needs sixty millons worth of the France twenty, to make up for the deficiency war expenses, here are eighty millions of dollars needed in one twelve month to supply natural deficiencies."

FORGIVENESS OF INJURIES .- When some of his courtiers endeavored to excite Philip vengeance in one's power, and not to use it."

I-O"If girls will kiss, let them perform the ceremony as if they loved it. Don't let them sneak about the thing as if they were purloining cheese, nor drop their heads 'like illies o'erpressed with the rain.' On the contrary, they should do it with an appetite, and when they let go,' should give rise to a report that will make the old folks think someody is firing pistols around the house. So our Devil says-he knows.

THY WILL BE DONE .- The late Mr. Kilpin of Exeter writes; "I know a case in which the minister, praying over a child apparently dying, said, 'If it be thy will, spare-The mother's soul yearning for her beloved, exclaimed, 'It must be His will! I cannot bear The minister stopped. To the surprise of many the child recovered; and the mother, after almost suffering martyrdom by him while a stripling, lived to see him hanged be fore he was two and twentyt! Oh! it is good to say, Not my will, but Thine be done."

ROYAL COURTSHIP .- A letter from Berlin says: "Prince -Fredrick William, son of the Prince of Prusia, has left this city to pay a vist to the Queen of England, at Balmoral Castle. The object of his visit is to renew his acquaintance with the eldest daughter of the Queen, who is hereafter to become his wife. The marriage is fixed on between the parents, but it will not take place for the present, owing to the youth of the Princess.

RESOWN.-Wood burns because it has the proper stuff for that purpose in it; and a man becomes renowned because he has the necessary stuff in him. Renown is not to be sought, and all pursuit of it is vain. A person may, indeed, by skillful conduct, and various artificial means, make a sort of name for himself; but if the inner jewel is wanting. all is vanity, and will not last a day.

FAST WORK .- It is stated that the Methonessee, which hus been in operation on- lication. ly five months, has printed 46,586,000

MILITARY LITERATURE. - American papers are remarking on the absence of all literary effort in the Crimea, and are therein noting-very much to their own glory-a characteristic difference between the sur roundings of an American and of an English army. The contrast is fair; the self landa-tion is not unjust. Our readers know that when the "Yankees" marched into Mexico of that government to confess to a weakness | they carried with them a printing press, and which a serious failure in the grain crop published a newspaper along the line of inwould imply, we may safely estimate the de- vasion. Across prairies, through dangerous passes, over mountain ranges, sometimes on mules, oftener on men's shoulders, occasion. than that admitted by the government organ, ally in wagons, travelled press, paper, type, six millions two hundred and fifty thousand and pressmen-fighting, foragin, writing, working onward. Infinite were the use of the press. It carried orders through the camp. Every morning the soldier read in it Herald says: "Already-and the war has not | the story of the previous day. It anticipated lasted over a few months-Great Britain finds | the gazettes; it disseminated orders of the day; it perpetuated the gossip of the camp; reflected public opinion in the army; made staple of life from foreign countries, and known every want; supplied every information exercised, and animated every heart .in one year's harvest. Independently of the | Had the Americans been in the Crimen they would have had daily papers at Balaklava. Eupatoria, Yenikale, and Constantinople; and these papers, reflecting the humors, incidents. and life of the camp, woul have ranked among the best historical documents on the war. As it is, our soldiers in the Crimea are indebted to the London journals for anthe Good to punish a prelate who had used thentic information of what occurs in the bin ill-"I know," said he, "that I can re- camp itself and within a mile or two of their verge myself; but it is a fine thing to have tents. Jonathan is far ahead of us in some respects .- London Athenaum.

HON, SAMUEL D. HUBBARD, an ex-member of Congress, and subsequently Postmaster General under President Fillmore's administration, died at Middleton, Conn., Tuesday night

It is stated that of the ten thousand dollars in cash paid to the Indians at La Pointe, Mich., hardly a dollar was carried

away by them; all was lost by gambling. HIWASSEE COLLEGE, TENN., Oct., 15th, '55. Gentlemen of the Eromathesean Society :-

Having been constituted a Committee to draft a preamble and resolutions relative to the decease of Rev. Lewis Carter, (who died at his residence in this vicinity on Saturday, 1st of Sept. last.) we submit the following: WHEREAS, it has pleased Divine Providence in his mysterious wisdom to remove from our midst, and from his post of earthly usefulness, not only a brother and neighbor, but a "man of God," full of years and christian

Resolved. That we have every reason to believe that our loss is his eternal gain. Resolved, That in his death our brotherhood and the Methodist church at Bat Creek have realized a painful and afflictive calamity. Resolved. That our heart-felt sympathies are extended to the relatives of our deceased

brother, and especially his widowed con-Resolved, That the Society wear the usual badge of mourning thirty days, as a token of regard for him who ever taught us that the "right path was the safe one."

Resolved That a transcript of the foregoing be sent to the bereft widow; also to the dist Publishing House at Nashville Ten- Athens Post and Christian Advocate for pub-

A. J. VAUGHN,

GROW YOUR OWN CLOVER SEED. The "Country Gentleman" gives farmers

the following good advice: In order to induce farmers to sow more clover it is very important that they be persunded to grow their own clover seed; for it will be admitted that he who has to pay \$5 to \$8 per bushel to the city merchant or the seedsman will be much more sparing of elo-38 ver than the farmer who raises an abundance of his own. Fortunately, this climate is not to them. only well suited to the growth of large crops of clover for fodder, or for turning under as a tertilizer, but it is also well adapted for the 58 production of large crops of excellent clover seed. Why, then, is it so high! Why, then, is it that every farmer does not raise at least 44 as much as he needs for his own use? There is certainly no more necessity for buying clover seed than there is for buying seed

Wheat. If not already done, let every farmer select a few acres of his cleanest clover, cut it as early as possible and then allow it to grow to seed. If the land is neat and clean nothing more is required; if poor, 150 to 200 lbs. of good Peruvian guano per acre sown broad-69 cast as soon as the first crop is removed, sold on his usual liberal terms for Cash, or to during showery weather, will be found a good men on time with prompt pay. Assur59 beneficial, and we have little doubt a profitable ing his friends that his stock will be found application.

Plaster increases the foliage of the plants, but, it is said, retards the ripening of the seed. Four bushels of clean seed per acre is a fair average crop, but eight bushels may easily be 1293 gotten, by cutting the first crop early, or by eating it oil by the sheep till the middle of May or the first of June. If the land is not rich enough it should be well manured early in the spring, or still better, in the fall with well rotted barnyard dung. It is important to have the clover as early as possible, since it is frequently injured by frosts in the fall. After the seed is matured, however, the frost does not burt it; and now that we have several excellent machines for taking off the heads of clover seed, thus avoiding the expense and labor of curing the clover in cool wet weather, it may be left out late in the fail without any loss or inconveni-

once. We repeat, and we would that every farmer 1793 in the country could hear us, grow your own 881 clover seed, and never without special reason, sow a field of wheat or barley, without seeding down in the spring with from ten to fif-1528 teen lbs. red clover per acre. We believe it 804 will pay, even though the clover sod is plow-1288 ed up the next spring. We will add, too, that where plaster can be had for less than 785 five dollars per ton, and where experience 1740 proves it good for clover, the practice of sowing a bushel of plaster per acre, at the time of sowing the clover seed, is worthy of extensive adoption. We think it of great benefit in enabling the young clover plants to stand the drouth.

Mr. Editor:-It is a common practice for farmers to sell property to poor men on a eredit, for instance, a cow or horse, and retain a lieu on the property until the debt is paid. Now, I understand that the Supreme Court has decided that such a lien is "null and void"-that to hold a note against a man for personal property, and at the same time 1213 hold a lien on the property, has been decided "fraud." If that is true, why is it not a "fraud" to hold a note against a man for land, and at the same time retain a lien upon the land?

937

It is a common practice with merchants to sell goods to negros without the master's permission. Is that an inditable offence! Will Judge Keyes please give us the law in each case, through the Post, and much oblige the FARMERS & MERCHANTS.

CANDIDATES. We are authorised to announce Coi. Jas. Hicker, of Polk county, (formerly of McMinn.) as a candidate for Brigadier General 5th Brigade Tennessee Minita.—The Brigade is composed of the counties of Roane, Monroe, McMinn, Polk, and Bradley.

Monroe, McMinn, Polk, and Bradley.

Another case of Fever and Agne Cured.—A few days ago we recorded an astonishing cure of Fever and Ague by the use of Dr. M'lane's laver Pills. We have now another to mention, viz: that of Mr. James Sharpe, of Madsonburgh, who states that he had labored under a very severe attack of Ague and Fever, and was soon restored by the use of these Pills. He also expressed an opinion, founded on observation, that the Laver Pills are the best for billous complaints ever offered in this section of country.

Although long known as a severeign remedy for chronic cases of Hepatic derangement, or diseases of the Liver, the proprietors of Dr. M'lane's Pills were not prepared for the frequent, but grafifying evidences of its general utility and curative capacity. In this respect, this invaluable medicine has exceeded their most sanguine expectations, and induced them to hope that it will be introduced into every family in the United States.

States.

Purchasers will be careful to ask for Dr. M'Lane's
Colologated These Differences Purchasers will be careful to ask for Dr. M.Line's Coloborated Liver Pills, and take none else. There are other Pills, purporting to be Liver Pills, now before the oublie. Dr. M.Lane's Liver Pills, also his Celebrated Sermifuge, can now be had at all respectable Brug Stores in the United States and Canada.

For sale by P. H. Khiris & Co., Athens; J. A. & C. W. Copris, Madisonville; and by one Agent in every town in Tennessee.

[oct 19]

We seldom recommend a manufactured medicine, beliving that, in most cases, nature horself perfects a cure more rapidly and effectually than can be accomplished by the vegetables and minerals of medical science. But in the matter of dyspepata, there are chronic features about it, which very often dely all the efforts of nature to create a healthy action of the digestive organs, and it not unfrequently happens that thousands suffer for years, diseased both in body and mind, from indigestion and its kindred lifs. To such, Hoofhand's German Bitters, prepared by Dr. C. M. Jackson, are truly a most valuable preparation. It is a tonic medicine, giving a healty action to the stomach, and will be found highly serviceable at all seasons, but especially during the spring. Dyspepaic can only be cured by a patient perseverance in one course of treatment; and to all those suffering under this sai mainly we would resoumend an application to the deput of Hoofland's German Bitters, 120 Arch street, Pikadelphia, -Philladelphia Inquirer. See advertisement. [oct19] We seidom recommend a manufactured medi-

Billious Diseases, or long continued illness of any kind will find Carter's. Spanish Misture tile only remedy which will revice their drosping constitutions, expel al bad humors from the blood, excite the liver to a promp bad humors from the blood, excite the liver to a prompt and healthy action, and by its tonic properties, restore the patient to life and vigor.

We can only say TRY IT—A single bottle is worth all the so-called Sarsaparillas in existence. It contains no mercury, spinm, or any other noxious or poleonous drag, and can be given to the youngest infant without hesitation. See the certificates of wonderful cures around the bottles. More than five hundred persons in the city of Richmond, Va., can testify to its good effects. See advertisement.

Married. On Tuesday, the 16th inst., by the Rev. C. Godby, Mr. Wn. Bussell, to Miss Amanda Salles, all of this place.
